

Advanced Math

Parent Appeal Form

The purpose of the form is to give parents an opportunity to request reconsideration of their students into Advanced Math. This would apply to students who have additional information that was not considered in the initial screening. This information could include other national test scores.

Some reliable ability tests include the Otis Lenin, CogAT, and WISC IV; some achievement tests include the Kauffman or K-TEA, WIAT, Stanford, ITBS, and the Woodcock Johnson. Note: There is no need to include any ITBS/CogAT and MEAP scores since they have already been considered.

Please Print

Student _____ Birth Date _____
Month Day Year

Teacher _____ Current Grade _____ School _____

Daytime Phone Number _____ Name of Contact _____

Email address: _____

(You will receive an email confirming that Northville Public Schools has received this form.)

Reason for Appeal: _____

Completion of this form is a necessary step in the screening process for reconsideration of the above named student for Advanced Math placement. *Attach copies of any additional information which can be used in reevaluating your student's placement.* Forms are due by **May 14** for spring consideration and **August 1** for summer consideration.

A committee comprised of counselors, administrators, curriculum facilitator, and psychologist will review the information and make a decision at the next scheduled meeting. Parents will be notified by letter of the results. Decisions are final.

Your signature below provides permission to share data, including testing information, on the above named child with the committee and the school the child attends.

Signed by Parent/Guardian _____ Date _____
